Supported by the *LIFE* program of the  
European Union  
(LIFE02 ENV/EE/000426)

**bm:bwk**

Supported by the Austrian Federal  
Ministry for Education, Science and  
Culture (GZ 650.873/2-VI/2/2003)

## Statistical facts

*Year of first mention in written sources 1240*

*Year of getting town rights 1345*

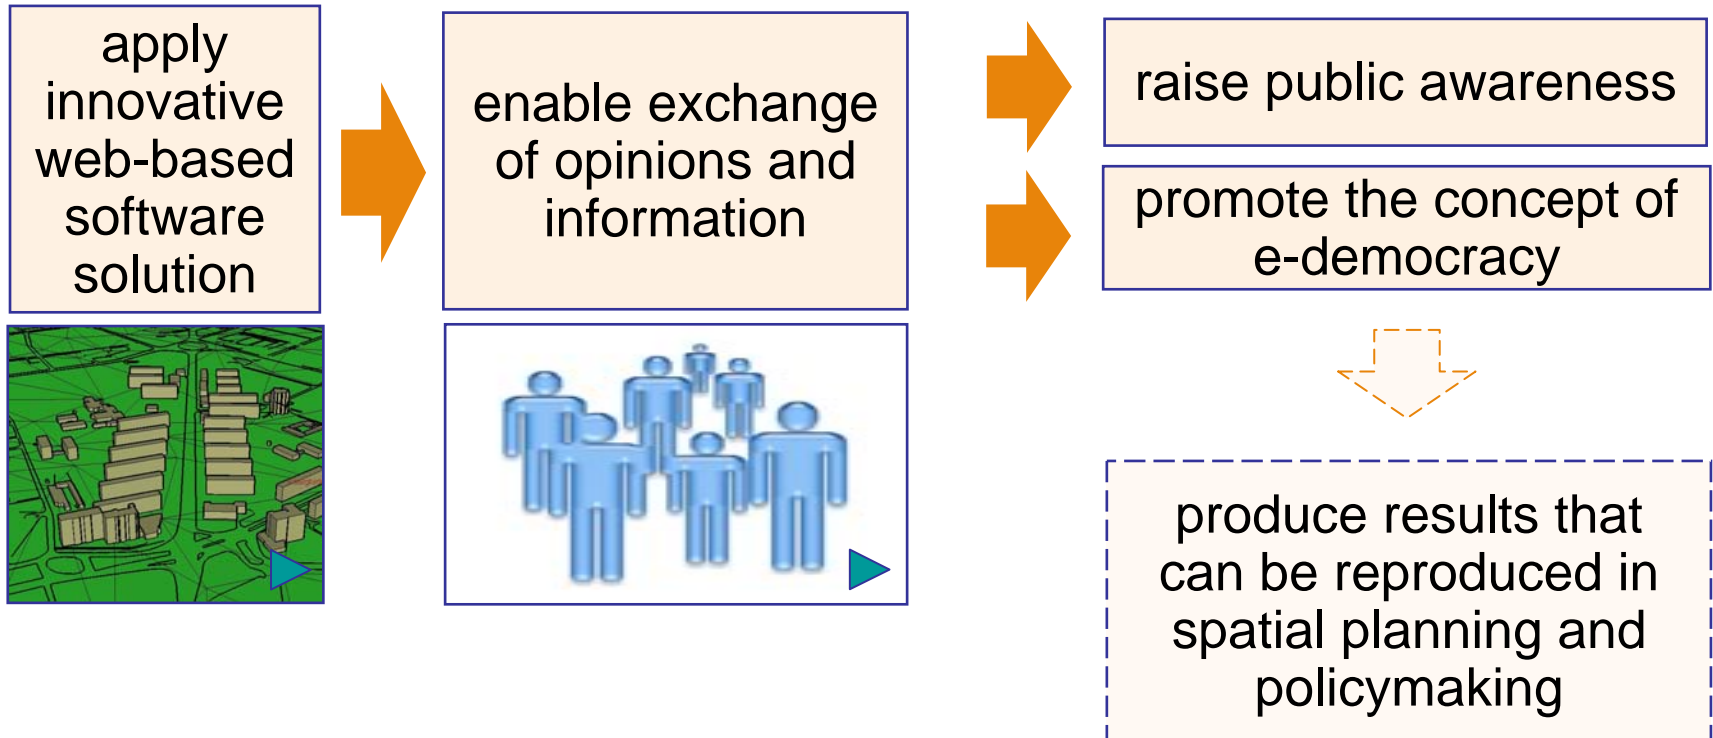

*Inhabitants 70178*  
*male 31377 female 38801*

*Area (km<sup>2</sup>) 84,54*  
*Population density per 1 km<sup>2</sup> 830*

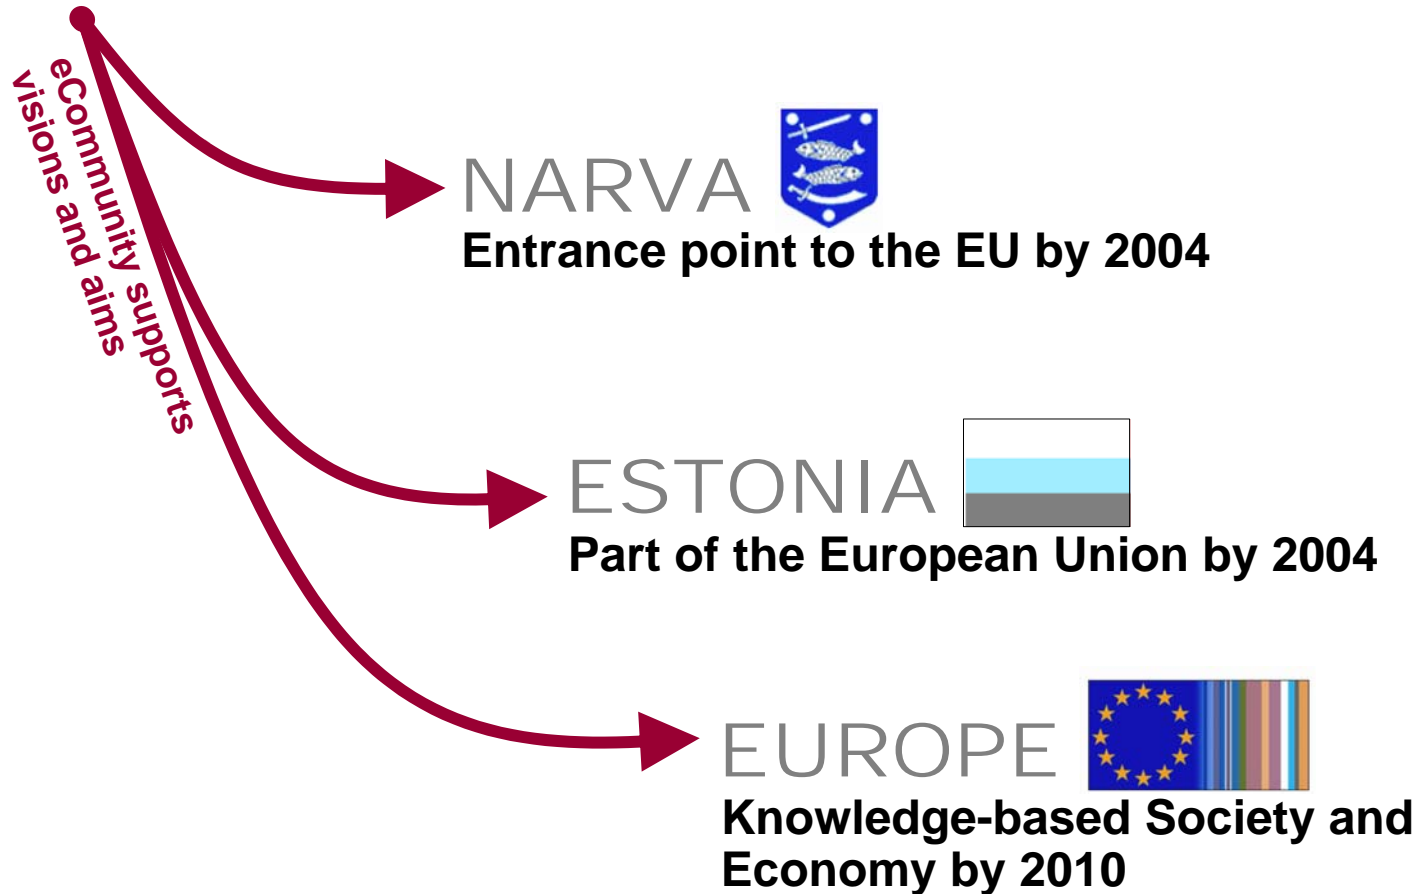

The objective of eCommunity is to **promote sustainable and democratic urban planning** by using opportunities offered by information technology and WWW.

# Community

Sustainable and democratic urban planning by 2005

## Current usage of the internet in communicative planning process:

- simple one way information through web pages
- planning map on the web page
- (unintelligent raster map)
- html-form for feedback
- discussion list

## More thorough interactive planning process requires:

- **Public participation** already in the beginning of the planning process
- **Distribution of information** throughout the whole planning process
- **Interactive planning**

## Interaction is needed for:

- **discussion** of objectives and priorities
- **distribution** of information
- expression of **opinions**
- gain of **trust**
- **inclusion** of various parties to the planning

# e-Government & e-Democracy

## Possibilities and risks of “e-participation”

Paper by Ursula Hester, Doris Schnepf  
and Roman Mesicek:

**"Prerequisites for a Sustainable and  
Democratic Application of ICT"**

**Download at: [www.seri.at/wsis2003](http://www.seri.at/wsis2003)**

**world summit  
on the information society**  
Geneva 2003 - Tunis 2005

## Digital communication capability

can be seen as a mixture of easy and convenient **access** to all relevant information, adequate **competence** to receive, process and respond to information as well as **motivation** to consciously use it for different aims.

Source: Marsh, 2002

## CASE STUDIES

Analysis of European cutting-edge projects on the topics **e-Government** and **Urban Planning**.

## LESSONS LEARNED

Surprising number point towards **recurring themes and issues** that are **universally applicable** to the development of participatory e-government services and tools

## MAJOR OUTCOME

**Success factors**

**E-GOVERNMENT  
BEST  
PRACTICES  
MATRIX**

Three major themes recur as **prerequisites** for success of eGovernment solutions:

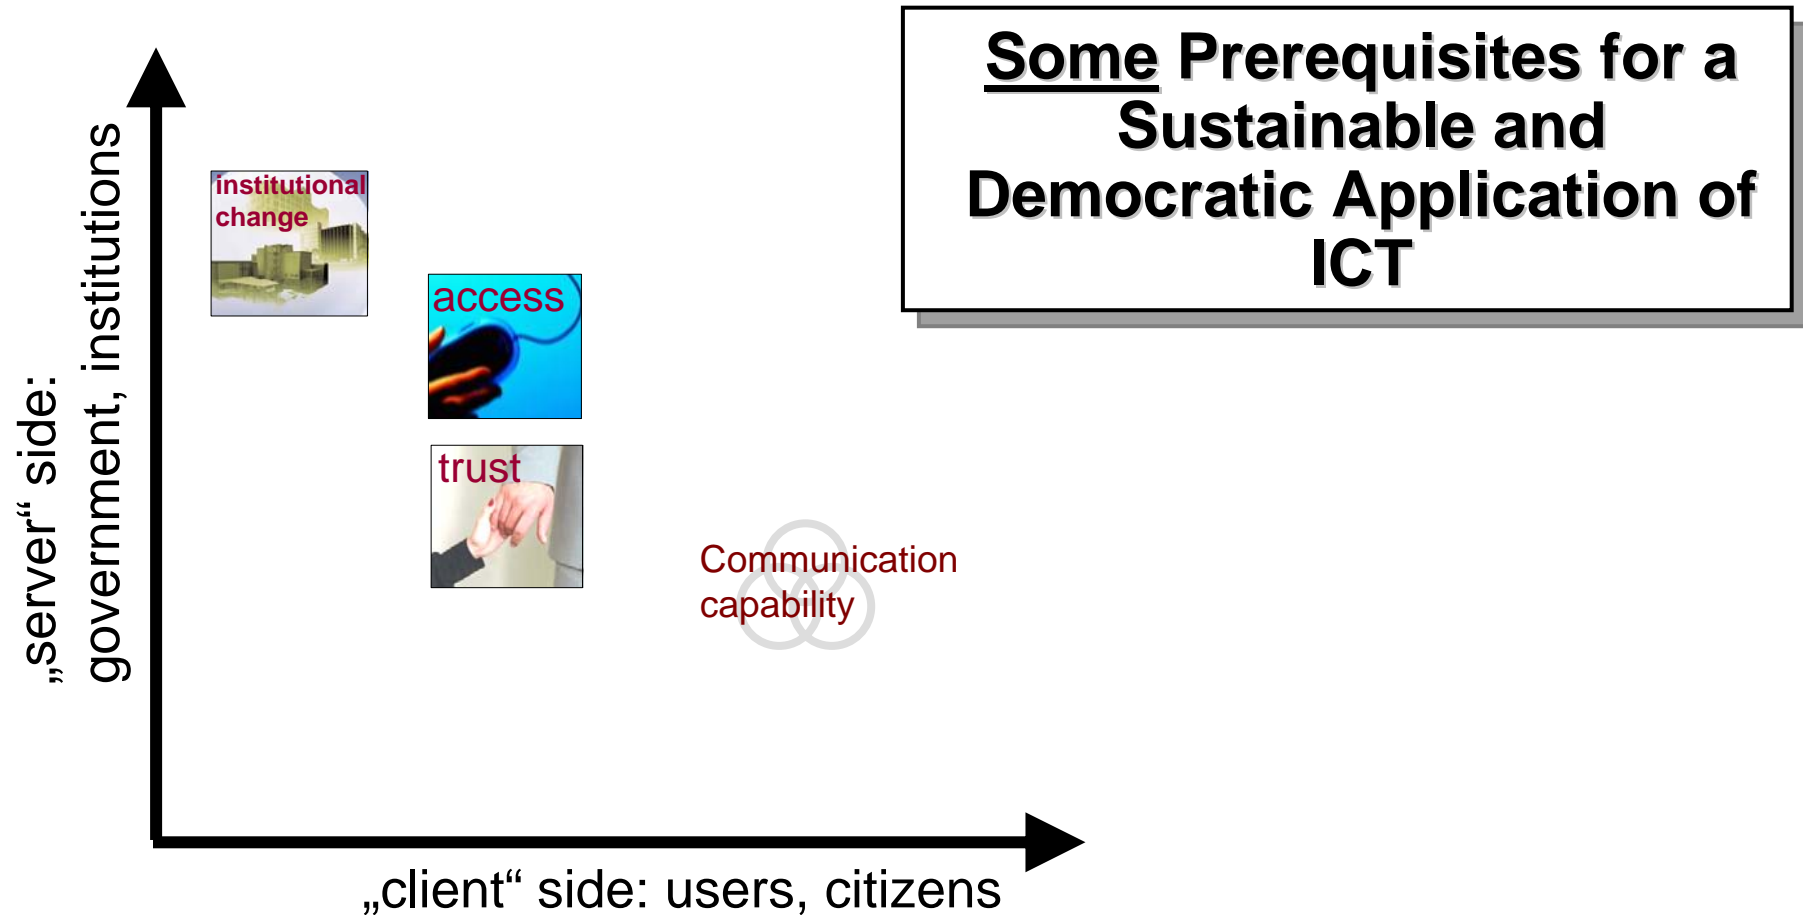

This raises the following question ...

- *How it is possible to achieve these three conditions?*

**E-GOVERNMENT  
BEST  
PRACTICES  
MATRIX**

**Thank you for your  
attention.**

**Good-bye!**
